

Prof dr Zorana Vasiljevic, MD, PhD, FESC, je načelnik odeljenja urgentne kardiologije Klinike za kardiologiju Kliničkog Centra Srbije. Medicinski fakultet je završila u Beogradu kao jedan od najboljih studenata generacije, a specijalistički staž na Internoj B klinici, gde se zaposlila neposredno posle završenog fakulteta. Posle položene specijalizacije interne medicine, radi magistarsku tezu, u toku koje uvodi kateterizaciju desnog srca po Swan-Ganzu kao novu metodu. Tema magistarske teze bila je "Hemodinamika u akutnom infarktu miokarda". Doktorsku tezu sa temom „Uloga spazma u nestabilnoj angini pektoris“ odbranila je 1986. godine. Usavršavanje i subspecijalistički staž je delom završila u bolnici Toraxcentrumu, u Rotterdamu gde je provela 6 meseci, a zatim i u Hammersmith bolnici u Londonu.

Od 1982. god kada je izabrana je za asistenta na predmetu interna medicina na Medicinskom fakultetu u Beogradu započinje akademsku aktivnost, da bi pre 1999. godine postala redovan profesor.

Do sada je objavila veliki broj stručnih radova (preko 350), poglavlja u knjigama i udžbenicima, i ima citiranost preko 300. Nosilac je projekta pri Ministarstvu nauke Republike Srbije. Izuzetno je bila angažovana u organizaciji sastanaka Kardiološke sekcije u toku svog mandata predsednika sekcije od 2003-2004.

Kao predsednik Radne grupe za srčanu insuficijencije Udruženja Kardiologa Srbije, organizuje izuzetno dobro posećene sastanke. Zamenik je šefa katedre za poslediplomsku nastavu iz kardiologije, organizator nastave kliničke kardiologije na poslediplomskim studijama iz kardiologije. Predavač je na osam subspecijalističkih kurseva na Medicinskom fakultetu. Mentor je 10 odbranjenih doktorskih teza i 28 odbranjenih magistarskih radova.

Član je kardiološke sekcije SLD, Udruženja kardiologa Srbije, Evropskog udruženja kardiologa i Član Evropskog društva za klinička istraživanja. Kao savetnik Ministra zdravlja za akutni koronarni sindrom organizovala je od 2003 god prikupljanje podataka o akutnom infarktu miokarda i urgentnim stanjima u Srbiji, koji predstavljaju prve epidemiološke podatke kod nas. Inicijator je i organizator prvog Nacionalnog registra za akutni koronarni sindrom od 2002. godine.

Spisak radova

Asanin M, Vasiljevic Z, Matic M, Vujisic-Tesic B, Arandjelovic A, Marinkovic J, Ostojic M. Outcome of patients in relation to duration of new-onset atrial fibrillation following acute myocardial infarction. *Cardiology* 2007;107(3):197-202.

Mrdovic IB, Savic LZ, Perunicic JP, Asanin MR, Lasica RM, Jelena MM, Matic MD, Vasiljevic ZM, Ostojic MC. Randomized active-controlled study comparing effects of treatment with carvedilol versus metoprolol in patients with left ventricular dysfunction after acute myocardial infarction. *Am Heart J* 2007;154(1):116-122.
